# I'm Deppy

a web designer and developer

Hello everyone.

I'm a graphic and web designer and I love web development at the same time. Let's create something beautiful!

My Skills.

UI/UX Design

I really like designing the user interface of apps and websites. Minimalism and balance in colors and shapes is my power.

Web Development

We just designed a nice interface and it looks great! But is it functional? I can give life to the website of your dreams!
